PROFESSIONAL SUMMARY

Frontend Engineer with 1+ year of hands-on experience building responsive, high-performance, and SEO-optimized web applications. Proven ability to translate UI/UX designs into clean, scalable code while improving page load speed by up to 40% and user engagement by 20%+. Experienced in delivering 15+ production-ready websites and applications for SMEs, NGOs, and startups. Strong foundation in JavaScript, React, HTML, CSS, and modern frontend best practices, with working knowledge of backend integration and Agile workflows.

CORE TECHNICAL SKILLS

- **Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), React.js, Typescript, Nextjs, Bootstrap, Tailwind CSS
- **CMS & Platforms:** WordPress (Theme Customization, Plugin Configuration, WooCommerce)
- **Backend & Databases (Working Knowledge)**: Node.js, Graphql, Express.js, MongoDB, Firebase
- **Tools & Workflow**: Git, GitHub, Figma, Lighthouse, Chrome DevTools
- **Frontend Expertise:** Responsive Design, Cross-Browser Compatibility, Performance Optimization, SEO Best Practices, API Integration, UI/UX Implementation

---

PROFESSIONAL EXPERIENCE

Frontend Developer

Semester Technologies (Remote) || February 2025 – Present

- Developed and deployed 10+ responsive web applications, improving overall user engagement by 20%.
- Translated UI/UX designs into reusable, maintainable frontend components using JavaScript, React, Bootstrap, and Tailwind CSS.

- Optimized application performance, reducing average page load time by 40% and improving Google Lighthouse scores from 65 to 90+.
- Ensured cross-browser and cross-device compatibility across Chrome, Firefox, Safari, and Edge.
- Collaborated with designers and backend developers in Agile sprints, consistently delivering features ahead of deadlines by up to 2 weeks.
- Integrated APIs and implemented client-side validation to improve data accuracy and usability.

WordPress Developer

Floxy VBA (Remote) || December 2022 – February 2024

- Designed, developed, and maintained 15+ WordPress websites for SMEs, NGOs, and e-commerce businesses, achieving 95% client satisfaction and retention.
- Customized WordPress themes and plugins to meet branding, functionality, and performance requirements.
- Implemented SEO best practices, resulting in an average 30% increase in organic traffic across client websites.
- Integrated WooCommerce, payment gateways, and checkout flows, supporting 50+ monthly transactions for client businesses.
- Improved website performance and accessibility through code optimization and responsive design techniques.
- Created user guides and technical documentation, reducing post-launch support requests by 25%.

Fullstack Developer (Trainee)

SQI College of ICT || July 2025 – March 2026

- Expanding technical expertise in React, Node.js, Express, MongoDB, and Tailwind CSS to complement frontend specialization.
- Building dynamic, full-stack applications with scalable frontend-backend integration.
- Applying project-based learning and Agile methodologies to strengthen collaboration, problem-solving, and real-world development skills.

KEY PROJECTS

Book E-Commerce Platform

Technologies: HTML5, Bootstrap, JavaScript, Firebase

Live Demo: https://uniquebooks-bc7cb.web.app

- Built a full-featured online bookstore with user authentication, secure checkout, and real-time cart updates.

- Implemented dynamic product listings, filtering, and search functionality to enhance user experience.
- Integrated Firebase Authentication, Firestore, and Hosting for backend services.
- Designed reusable UI components to ensure consistency and scalability.
- Optimized frontend performance and ensured cross-browser and cross-device compatibility.
- Applied clean code principles and client-side validation to improve maintainability and usability.

Branmart Online Marketplace

Technologies: HTML5, Bootstrap, React.js

Live Demo: https://branmart.vercel.app/

- Developed a modern e-commerce frontend using React, featuring structured product listings and intuitive navigation.

- Built reusable, responsive UI components optimized for mobile, tablet, and desktop experiences.
- Implemented interactive shopping cart functionality with real-time updates.
- Added robust form validation and search/filter features to improve data accuracy and user flow.
- Delivered a scalable frontend architecture optimized for performance and future backend integrations.

FanMid Commerce

Technologies: Next.js 15, TypeScript, GraphQL, Apollo Server, MongoDB, Tailwind CSS

Live Demo: https://fanmidcommerce.vercel.app/

- Built a full-stack fashion e-commerce platform with product listings across Tops, Bottoms, Outerwear, and Accessories categories, featuring 2,000+ curated products.

- Implemented a GraphQL API with Apollo Server for flexible data querying, JWT-based authentication, and full admin panel for inventory and order management.
- Integrated Paystack payment gateway for secure checkout, with dark/light mode theming and responsive design across all devices.
- Leveraged Next.js App Router for server-side rendering and optimized performance, with MongoDB as the database backend.

FanMid Consult

Technologies: React, Tailwind CSS, Express.js

Live Demo: https://fanmidconsult.vercel.app/

- Developed a professional consulting platform with a React frontend and Express.js backend, featuring service listings, consultation booking, and contact workflows.

- Styled with Tailwind CSS for a modern, fully responsive UI across desktop and mobile viewports.
- Built RESTful API endpoints with Express.js to handle form submissions, service inquiries, and client data management.

Abeokuta Gospel Competition (AGC)

Technologies: Next.js, TypeScript, Tailwind CSS, MongoDB

Live Demo: https://agc-mauve.vercel.app/

- Built a real-time gospel talent show voting platform for Abeokuta, Season 1, featuring contestant profiles, live leaderboard, and countdown timer for active voting stages.

- Implemented an admin panel for stage management, contestant registration, and vote tracking, with MongoDB for persistent data storage.
- Designed a responsive, engaging UI with Tailwind CSS optimized for community event audiences on both mobile and desktop.

EDUCATION

Moshood Abiola Polytechnic, Ojere || 2019 – 2024

Higher National Diploma (HND), Electrical & Electronics Engineering (Telecommunications)

Ifelodun Comprehensive High School || 2012 – 2018

Senior Secondary School Certificate (SSCE)

CERTIFICATIONS

- WordPress Developer || Whogohost || 2023
- Website Developer || ITF TVET Maximization Project || 2023
